

## Hearts On Fire

Claudia Scott

I saw him standing in the corner of a room  
Talking to a friend of mine  
He did not seem to take no notice of the girls  
Standing there in line  
Seemed rather shy, so I thought that I might go  
And introduce myself  
Then he looked at me and smiled  
And for a while, everything stood still

Hearts on fire, I can't cool down  
No I'm not going to leave you  
Now that I have found you  
I'm going to stay with you  
All the time

I felt the courage leave after he had looked at me  
I didn't dare to come around  
I do not think we really grasped  
what we had see, and what we both had found  
A friend was talking, but I did not hear her voice  
Too lost in my own dreams  
Then I looked up into his eyes, was taken by surprise  
And everything stood still

Hearts on fire, I can't cool down  
No I'm not going to leave you  
Now that, I have found you  
I'm going to stay with you  
All the time  
I'm going to stay with you  
With my heart on fire  
I'm going to stay with you  
With my heart on fire  
I'm going to stay with you  
All the time...
